SUMMARY

Eager to gain practical programming experience and utilize strong problem-solving and communication skills. Committed to contributing to innovative projects and advancing professionally.

WORK EXPERIENCE

Frontend Developer - AR Treasure Hunt (Repo)   October 2024 - Present
– Collaborated in a team environment to achieve project milestones and ensure timely delivery
– Created interactive AR treasure hunt responsive website using React and Tailwind CSS
– **Reference:** Bibhushan Saakha (Event Lead) - 9840103828

Organizer - Hack the Circle (Repo | Demo)   November 2024 - Present
– Created official website for the hackathon using React and Tailwind
– Worked effectively in a team to ensure seamless website functionality and user experience
– Worked closely with designers to implement graphic requirements
– **Reference:** Abi Shrestha (Event Lead) - 9863476900

Deputy Campus Director - Hult Prize at KhCE   Dec 2023 - Feb 2024
– Supported campus operations and event coordination for the Hult Prize competition
– Organized workshops and networking events to foster student innovation

Participant - Hult Prize at IOE   Dec 2022 - Jan 2023
– Presented innovative idea pitch on production of fabric from flax plant
– Achieved semi-finalist position in the competition

PROJECTS

Sentiment Analysis Using Transformer   Link to Repo

Created a sentiment analysis model using transformer architecture to evaluate and classify sentiments in beauty product reviews. Enhanced the model's accuracy in understanding consumer opinions and feedback from textual data.

Personal Portfolio Website   Link to Demo

Developed my first React.js project, a personal portfolio website. The site features a modern, responsive design with interactive components, demonstrating proficiency in React and frontend development.

EDUCATION

2020 - present	Bachelor's Degree at **Khwopa College of Engineering - TU**	
2020	NEB(+2) at **United Academy**	(GPA: 3.23/4.0)

SKILLS

Python, C, C++, Javascript, Typescript, Web Development, Linux, Graphics Designing, React, Tailwind, Node, MySQL
